The market was very quiet today on the whole. Joe Bowers Extension and May Day were the Star stocks in the pit and the heavy sales in these two stocks very materially helped out the number of shares sold and also the selling price, which represents the day's total business.

May Day sold from 90 at the outset as high as 94 but it closed several points lower, while Joe Bowers Extension let | prominent stocks. go 8,000 at 8 and before the close was traded in at 7%.

Daly-West was weaker at \$11.85. The same may be said of Eagle and Blue Bell at 143.

Four Aces participated at 3 while Lower Mammoth held its own at 60. Sacramento was a trifle weaker at 30. Swansea made transfers at \$3.77 and Northern Light remains fixed around

Some Moved in a Sensational Manner and Industrials were Feverish.

Decline in Ratiroads-Iron and Steel Stocks Affected-Live Stock and Produce Steady.

New York, Jan. 3 .- Prices of the leading railway shares showed slight declines at the opening in sympathy with the heaviness of the London markets. The industrial division was feverish and some stocks fluctuated in a sensational manner. Consolidated gas was marked up 8 points, Brooklyn transit, sugar, Metropolitan street railway and some of the metal stocks jumped from 2 to 4 points. American tobacco rose to 1.071/2. The entire list ran off after the first haf hour on realizing. The iron and steel stocks were especially affected. Consolidated gas dropped 51/2 points and other specialties from 11/2 to 3. Pressure against the high-priced specialties ceased and there were some good recoveries. The railroads were steadily sold and continued a gradual downward course, net declines running afternoon. from 1 to 11/2 in many active stocks. The whole market yielded in sympathy. The bond market was irregular, but the undertone was fairly good.

The market hardened slightly and then yielded to the lowest under constant dribbling of stocks without any effort to support the market. The selling movement spent itself in the late dealings and prices recovered slightly on a desultory demand. Net losses reached between 2 and 2 points in many

# ITS DIVIDEND

This Time it is Larger, Amounting to \$30,000.

NEW MAMMOTH MEETING.

Mining in Mexico-Silver Shield Has Made Another Payment-Items from Park City.

Word was received yesterday afternoon at the local offices of the Ontario Mining Company that a dividend of 20 cents a share, or \$30,000 had been ordered paid at a meeting of the directors in New York. Mr. Chambers said today it was due at once, and that the checks would most likely arrive this

The last dividend was one of 10 cents a share, or \$15,000, and the payment of such a small sum was freely commented upon by those who claim to know something about the company's blg treasury surplus. Without doubt the doubling up this time will come as a surprise to many, but it is intimated that the great Ontario will be made to show its strength in the near future and regular dividends may be looked

NEW MAMMOTH MEETING.

Col. Bruback's Report Handed In-Vote to Make Stock Assessible.

The stockholders of the New Mammoth Mining company met yesterday afternoon, acording to schedule and heard the reports of Receiver Bruback and the committee appointed to forage information throw light on past dealings for the benefit of the stockholders. The com-mittee were not inclined to deal leniently with the board of directors whom they greatly blamed for the present disas-trous conditions. Some of the members Present disagreed with the committee's report and attributed it to hearsay. Receiver Brubeck's report showed that the unraveling of the tangled accounts of the company represented a total indebtedness of over \$31,000, less the sum of \$11,494.72, due from John R. Foulks and Ernest G. Rognon. The total receipts of the company were \$22,-700, of which \$17,200 came from the sale

k and the balance from the sale of cyanide products. A two-thirds majority was obtained in the vote to make the stock assessable, after which the meeting adjourned until tomorrow at 3 p. m.

BACK FROM MEXICO.

Much Mining Activity is Reported-Samples that Pan Free Gold-Old Mines Reopened.

P. J. Donohue has recently returned from Mexico and reports a great deal of mining activity in that section of the country. A sample of gold bearing ore was shown today by Mr. Donohue which looks very much like ordinary scoria, but which is said to pan free gold. The property from which it came is located between Chihuahua and the State of Sinaloa. It was discovered originally by an Indian who sold it for three cows and ten Mexican silver dol-

It is now valued at \$200,000. Mr. Donohue says the country must have been pretty thoroughly prospected by the Spaniards of olden days, cause nine-tenths of the properties that are being worked in Mexico today are said to be old mines which have been re-opened. In a number of them the operators of a century ago were barred from working to any depth because of the water. There were then no means of successfully grappling with the difficulty and in spite of the riches these mines contained, the tapping of water meant their abandonment. At a big outlay-running up to many thousands of dollars in some instances-some of these mines have been furnished with modern pumping machinery and it looks as if a number of American operators will reap a rich harvest in the near future.

SILVER SHIELD.

Eighth Payment of \$6000 Made-Another Level May be Opened Up.

eighth payment of \$6,000 was made yesterday by the Silver Shield Mining company on its Bingham possessions. The amount paid to date \$48,000, which leaves a balance of \$12,-000 still due which the company will wipe off in the next two months. mine is said to be in better condition that ever and many outside the company think with those who are inside that the Silver Shield is a sure winner. It has been the intention of the management to make the mine pay the last payment of \$6,000, but if there should be any foundation in the rumor that the United States property will shut down the Silver Shield would find itself without power, which is at present derived from that company. Should this hap-pen the installation of a steam plant will be necessary, and the cost of such improvements would materially reduce the treasury surplus. It is also pro-posed to sink fifty feet deeper in the winze and open up another level. The cost of the work may also make the levying of the tenth assessment a neces-

IRON MOUNTAIN.

Good Gold, Silver, Copper and Lead Values Found There in Addition to Iron.

Mr. D. J. Frew reports the discovery of good copper, silver and gold values in Iron county in addition to the iron deposits of which so much has been said and of which so much is expected. Some samples were recently obtained from near the surface on Iron Moun-tain which assayed 11 per cent copper, 7 ounces silver and \$8 in gold. Some fine samples of silver lead ore was also discovered by Mr. Frew, some of which assays high in both metals and has also a trace of gold. Mr. Frew and his as sociate, E. A. Thompson, are very enthusiastic over the rich promises made by the district.

BOOM FOR STATELINE.

The Johnny Showing Up Better Than

Ever-Rich Crown Point Streak. J. R. Lindsay is in from the Stateline mining district and reports prospects very flattering for an early boom oming fine medium fine, 18@21c; at that camp, says the Iron county 60@63c; staple, 65@68c; Idaho Record. Under the management of Wilfine medium and fine, 18@21c; scoured, liam Dooley the mill has completed a 60@62c; medium, 20@23c; scoured, 52@ run of 160 tons of ore from the Johnny mine which is satisfactory in every respect. The run was made simply as a test and will result in the trict.

pacity to meet the requirements of the mine, which is one of the best in the district. The mil was closed a short time since on account of a scarcity of water, the supply having frozen up.

The Johnny mir.e, from which the ore was taken to make the recent mill test, is showing up better than ever. It is still being worked with a force of seven men. With a mill having suffiseven men. With a mill having suffi-cient capacity to handle the ores, it promises to become a bonanza.

The Ophir, which is now down 250 feet with the bottom of the shaft all in pay ore, recently made a shipment of 1,200 pounds as a test of the values now being extracted. A good report is expected. Twelve men are employed on this property. A rich streak recently encountered

the Crown Point mine has produced some dollar-a-pound rock, while the cropping of the ledge, which is five feet in thickness. produced dollar-a-pound carries average values of \$24, in gold J. B. Smitson, who owns a two-thirds interest in this claim, recently bonded the other third, and is energetically working the proposition. This claim is situated about half a mile north of the famous Johnny mine.

The Jumbo, which is being worked by Rice & Minnedue, is one of the biggest low-grade propositions in the State. The entire vein, which is forty feet wide, carries average values of \$8 in gold. A tunnel has been started which, at a distance of 700 feet, will intersect a shaft 300 feet from the surface. Development work will be energetical-

The Big Fourteen Con. M. & M. Co is encouraged with the reports that come from the Big Sunflower, upon which the assessment work for 1899 has just been completed. An entirely different formation has been encountered which assays well in gold. A quantity of the ore was recently brought to this place, of which a thorough test will be made. Mr. Dooley pronounces it an A No. 1 proposition.

THE WEEK AT THE PARK.

Drifting on Ledge of Fine Silver-Lead Ore in California Group-East Valeo Increase.

Several weeks ago in running a crosscut from the 900-foot level in the California group of claims, owned by Rosscamp and others, a ledge of fine silverlead ores was uncovered between thirty and lorty feet wide. The rock also runs well in copper and gold. Drifting on this ledge is now going on and the tunnel is being driven straight ahead to tap a strong ledge that crops out a short distance farther on. The Salt Lake Herald of Thursday, in speaking of this property, says that the property is under lease and bond to W. I. Snyder, under which the work is being carried on. This is an error, as there is no lease and bond on the property, Mr. Rosscamp owning the controlling in-terest. This ground, however, affords a splendid opportunity for investment for parties with capital, for there is practically no question that large ore bodies will be found with development The ground adjoins the Comstock on the southwest, in the west end Uintah district, and the recent strike will doubtless awaken renewed interest in this highly mineralized locality, and we look for several shippers from there at an early date. EAST VALEO.

The news from the East Valeo this week is very favorable. The vein is the full size of the shaft and increasing as depth is gained. The ore streak is situated in the center of the vein and is also increasing and improving in value. It is now established that the strike of the vein is south 35 west, showing a quartzite foot wall and lime hanging wall. Supt. Myers intends to force the developments during the winter months. with a view to making it a shipping property in the early spring.

THAYNE'S CANYON.

It is predicted by many of our best miners that Thayne's canyon will be the scene of active mining operations in the near future. There has been a large amount of development work done on the west side of Rosscamp & Co., Duffy & Co., and others. Nearly all work has been done by tunnels, and the openings show large veins of splendid concentrating ore, carrying fair values in silver and lead. Keep your eye on that portion of our district in future.

The following ore shipments have been made from the Mackintosh samp-

ler during the past week: Silver King ...... 432,200 Apex ..... 71,100 Valeo ..... 23,120

Total number of pounds.....1,285,610 BLUE BIRD MEETING.

12,000 Expended During Year-Milling Ore Encountered.

The shareholders of the Blue Bird Mining Company met in annual session at the company's offices yesterday. The following directors were elected for the ensuing year: C. E. Loose, William Hatfield, J. H. Stallings, W. W. Chisholm and John W. Hatfield, who will meet to elect officers in a day or two The report shows that about \$12,000 has been expended in development work during the year and a body of a milling ore has been encountered at a depth of 325 feet.

### Mineral Surveys Ordered.

The following mineral surveys ordered have been filed in the surveyor general's office since Dec. 28th: 4313-Little Havana, Cecille and Bryan lodes situated in the Rush Valley

mining district, Tooele county, Sharp Mining company claimant. 4314-Golden Eagle lode, situated in West Mountain mining district, John Galligan et al of Bingham, claimants. 4315—Evening Star lode, situated in West Mountain district, Zelnora Hop-Wm. H. Bird, claimants. 4316-Jennie F. lode, situated in West Mountain mining district, Antonio Cerighino and E. D. R. Thompson attorney claimants.

MINING NOTES. F. E. Wilson was in Bingham today. The Bullion-Beck marketed ten cars of ore today.

A car of Mammoth concentrates was marketed today. Jackson McChrystal was scheduled to arive from Eureka today.

Col. O. P. Posey was expected to arrive from the West today.

Two cars from the Dalton and Lark at Bingham, reached town today. Two cars of ore were on the market today from the Eureka Hill of Tintle.

Fred Dern is at work on the Mercur payroll to be discharged on the 12th

The adjourned meeting of the New Mammoth Mining company convenes

The Conklin sampler receipts today were 1 from Fish Springs and 11 from The Taylor-Brunton sampler reported

cars of ore from Nevada and 11 from Tintic today. As intimated a few days ago in the "News" the De La Mar wall option has

not been taken up.

of 48 per cent copper.

An assessment of one-half cent a share has been levied by the Ben Butler Mining Company, of Bingham. The last shipment of Grand Gulch copper ore was settled for on the basis

The South Swansea of Tintic reached the sidetracks of the sampler today with three cars of ore.

The Uncle Sam of Tintic marketed its customary weekly shipment of l cars of silver-lead ore today. A. Hanauer Jr. is back from the East. He says the recent money flurry was to a great extent forced by irresponsible

manipulators. Superintendent J. A. Jacobsen left for the Ben Butler this morning. The erection of a boarding house is to be proceeded with at once.

The Glasgow & Western company marketed a car of concentrates and 1 of crude copper ore today from its Nevada property.

The annual meeting of the Mercur Gold Mining and Milling company will be held at the company's offices at 2 p. m. on January 31st. The election of new officers of the

Salt Lake Stock and Mining Exchange will be attended to on the 4th Saturday in the present month. The Grand Central marketed another four cars of high grade silver-lead ore today. This mine is said to be shipping

some of the richest ore that reaches this market. The shaft on the Smokehouse property in Butte recently purchased by the A. H. Tarbet syndicate, of this city, is now down thirty feet, says Hon. George

Haldorn, who came in yesterday. The Utah of Fish Springs reached the market today with another car of high grade galena. The management is marketing enough ore to pay the running expenses, but something more is anticipated when the new shaft is completed.

Washington County News: Copper ore from the Savanac mine is being stored in rear of James Andrus' store preparatory to shipment at Modena. The ore is very rich and is similar to the richest of the ore being obtained in the neighboring mine, the Grand Gulch. At the annual meeting of the stock-

holders of the Grand Central Mining Company held yesterday afternoon at Provo, the old board of directors were re-elected for the ensuing year. The old board was also re-elected by the stock-holders of the Victoria Mining Com-Boston Herald: Locally, the predica-ment of United States mining shares and collateral holders clouds the situa-

tion. There is a manifest absence of co-operation among the parties in interest, and delay seems rather a disadvantage than an advantage, since the property, now running, must soon be closed unless money is raised to continue operations and pay a debt of some \$50,000, said to be due by Jan. 10. Wood River Times: H. L. Childs, manager of the placer company of Montana that is to operate on a large scale on the South Boise next summer, left today for Butte and Helena, intending to return as soon as the snow goes, next,

spring. He will have one piece of ma-chinery weighing over 12,000 pounds to get in, and will have to make several miles of road between Soldier and the river before he can get his machinery Kingman Miner: T. J. Grant came in from Chloride Wednesday last to settle up some important business affairs. He is quite as enthusiastic over our northern strip as Judge Dunbar believes that the copper mines of that region have no superior. He was also captivated by the picturesque little town of St. George, four miles over the line in Utah. We

or handsome girls that formed the enchantment of Mr. Grant. Iron County Record: Marion Millett arrived here the first of the week from the Buckskin Mountains, where he has been assisting in developing a number of claims owned by his brothers and other residents of the locality, in which he is slightly interested. He reports that the principal properties have been bonded to an astern syndicate, who are furnishing money to develop them, and who will put in a smelter early in the spring. New ground is continually being located, until now the country for a distance of ten miles is dotted with

#### ····· BUSINESS NOTES.

location monuments.

The New Year is opening up very briskly from a business point of view, and the prospects are that 1900 will eclipse any previous year in the history of the State. The banks and leading mercantile houses are flooded with correspondence and calls from patrons as never before so soon after the holi-

The Deseret Savings Bank yesterday afternoon declared a two per cent dividand now payable. It was also decided to make the dividends payable quarterly hereafter.

At a meeting of the shareholders of the Salt Lake Valley Loan and Trust company, held yesterday afternoon, W. S. MCornick, Simon Bamberger, Rob-ert Harkness, W. W. Cheershall, Abram Hanauer, Sr., Edmund Kahn, David Keith, J. F. Woodman and Hugh Auderson were elected a board of directors. The officers will be named in the near

Dun's business review has this say of the holiday trade in Salt Lake: The holiday trade has been very satisfactory, and business continues good. The year has shown a substantial increase in all lines, averaging about 20 per cent. Money is easy, with a better commercial demand, and collections are

The Union Light and Power company has filed in the office of the county recorder the deed conveying to the Utah Light and Power company all of its property including real estate, engines and boilers, machinery, wires, poles, mining claims, reservoirs, pipe lines, and franchises. The consideration named in the instrument was \$1.

#### REAL ESTATE.

A warranty deed conveying from John W. Burton and wife to Aaron Keysor part of lot 1, block 38, plat B, has been filed for record in the office of the county recorder.
